

Combo tensioner hybrid - BB 120kg

ES-CTNTBB

The heavy duty wire tensioner BD 450kg is a combination of a tensioner and an insulator all in one.

Features:

- A hardy heavy duty tensioner for all weather types
- Can tension up to a 2.5mm steel wires, making it very versatile
- Recommended tensioning up to 120kg
- It eliminates galvanic reaction between dissimilar metal thus eliminating rust and can be used with any type of wire

Specifications:

Material: UV stabilised glass filled nylon

Tension maximum: 120kg

Operating temperature: -40 to 80Celsius

Operating voltage: 0- 12KV

Recycling: SPI resin code 7
