

Strain insulator - Jumbo

Nemtek strain insulators are used at the beginning or at the end of an electric fence wire run. The strain insulator - Jumbo is suitable for fence wire diameters up to 2.0 mm and a working load of 30 kgs.

These strainers are available in black or white. Only virgin materials are used in their manufacture which are designed for a long life. They allow for larger creepage distance to reduce power loss.

Specifications:

Virgin plastics: UV stabilised for external use.

Colours: Black and white

Working max load: 30 kgs
